

I'd like to talk to your roofer that you plan on using to replace the roof before the Friday meeting. Can you send me their contact info?

David,

Remember that there is to be "No" depreciation in the settlement I fired the insurance company because I don't trust them and I never want to deal or contact them again.....

Thank you,  
Larry Beer

Larry, there will always be depreciation in any settlement due to the roof and other damaged items are not brand new. You'll recover that when the work is completed.
